Competence Framework

For learning, working and living in a digital world

2BDIGITAL

2BD Framework for learning, working and living in a digital world.

The 2BDigital Competence Framework for learning, working and living in a digital world has been designed to upskill VET learners, at risk of disengagement and drop out and early leaving, who need to develop the competences required to learn and work in an increasingly digital world.

2BD First Year's Results Tree

2BDigital Project made one year of implementation last March, and we made a balance on all that we have accomplished, and on the foundations for that work to be possible. Discover the apples and seeds of our [Results Tree](#).

Partners' Meeting in Zagreb

It was great to meet again during springtime in Zagreb for second translational meeting, where we tackled the next phase of the Project with proposals of scenarios and Agile learning techniques to bring the best training for upskilling of...[Read more](#)

2BD has a new Partner

We have very happily welcomed on board CARDDET (Center for the Advancement of Research & Development in Educational Technology), a non-profit organization based in Cyprus, with a long expertise in education, sustainable development, social justice and technology empowered solutions.. Learn more (link a web [CARDDET](#)).

OBJECTIVES

To **improve** the transition of VET teachers to **digital education**, increasing the effectiveness of their teaching, and preventing their burnout.

To **increase** the engagement in **online education** of VET students to reduce dropouts, and boost their professional development in the new digital society.

OUTCOMES

Transversal competences framework for learning and working in the new digital society.

Online methodology for transversal competences development in VET.

Online transversal competences assessment methodology and tool
